**Life is
Better
@ Home**

**Stay
in Charge
and in Your Home**

Why Choose Better@Home?

- **Stay at Home**-Most people prefer to remain in the comfort of their own homes.
- **Stay in Control**-You stay in control of your services, your schedule and workers. People who have more choice and control over services report being more satisfied with those services.
- **Stay on Budget**-Providing care in the home can cost much less than other types of care.

How is Better@Home Care Different?

- You decide who works for you.
- You choose the types of services you need.
- You schedule the workers so services are provided when you want them.
- You determine if the work is being completed to your satisfaction.
- Workers can be family members, friends, or neighbors who have helped you in the past.

For example, you can hire workers to prepare meals, clean the house, shovel the walk, take you to the doctor or help with any other activities that you need to remain living comfortably in your own home.

How Does Better@Home Help Me?

Better@Home partners with you to share the complex employment functions. This co-employment partnership ensures the services measure up to YOUR standards.

Better@Home:

- Assists you with determining what services and supports you may need.
- Links you to a list of potential caregivers.
- Facilitates a background check on potential employees.
- Assists with the training of the employee, if you choose.
- Processes employee paperwork.
- Performs the complex administrative functions associated with payroll.
- Pays liability and unemployment insurance for your employees.
- Manages employee benefits (life insurance, retirement).
- Ensures compliance with IRS regulations.
- Provides workers compensation for your employees.
- Monitors your health and safety.
